## Skills

- Honest and articulate verbal and written communication in teamwork settings
- Adaptable problem solving
- Highly motivated to achieve the best results for any endeavour
- Highly experimental pattern making
- Extensive knowledge in cloth cutting and garment construction
- Superb attention to detail
- Adobe Illustrator, Photoshop and InDesign

In 2016 I completed the Associate Degree of Fashion Design and Technology at RMIT before transferring to the Bachelor of Fashion (Design) (Honours) in 2017 of which I'm completing my final year of study.

My area of practice lies in experimental outcomes, using a systematic method to physically design through making I create the central object in my practice, the garment. Throughout my studies I've developed exceptional skills in patternmaking and garment construction which I've honed to produce well-made garments and fine finishing's. Adding to this, my certificate IV in graphic design taught me valuable skills in CAD programs such as Photoshop, Illustrator and InDesign.
